In re Application of	:	
Karl Bruce Thor	:	
Application No. 10/049427	:	DECISION ON APPLICATION
Filing or 371(c) Date: 05/06/2002	:	FOR PATENT TERM ADJUSTMENT
Attorney Docket Number:	:	
4220-78-PUS	:	

This is a decision on the "APPLICATION FOR PATENT TERM ADJUSTMENT INCLUDING REQUEST FOR RECONSIDERATION UNDER 37 C.F.R. § 1.705(b), filed July 16, 2009. Applicant submits that the correct patent term adjustment to be indicated on the patent is 1137 days, not 453 days as calculated by the Office as of the mailing of the initial determination of patent term adjustment. Applicant requests this correction based upon an assertion that the Office erred in assessing a reduction associated with the filing of an Information Disclosure Statement ("IDS"), and (2) on the basis that the Office will take in excess of three years to issue this patent.

The Application for Patent Term Adjustment Including Request for Reconsideration of Patent Term Adjustment ("PTA") under 37 CFR 1.705(b), is **GRANTED TO THE EXTENT INDICATED HEREIN.**

The Application for Patent Term Adjustment Including Request for Reconsideration of Patent Term Adjustment ("PTA") under 37 CFR 1.705(b), as it relates to the Office's failure to issue the patent within 3 years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE.**

BACKGROUND

The application was filed on May 6, 2002. On April 16, 2009, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment (PTA) to date is 453 days.

On July 16, 2009, applicant timely submitted the present request for reconsideration of patent term adjustment¹. Applicants do not dispute the adjustments to date of 964 days (40 days, 159

¹ Office records show that the Issue Fee payment was received in the Office on July 16, 2009.

days or 765 days) or reductions of 240 days (91 days, 28 days, 90 days or 31 days). Applicants, however, assert that the Office erred in assessing a reduction in accordance with 37 CFR 1.704(c)(8) in connection with the Information Disclosure Statement(s) ("IDS"), filed February 28, 2005. Applicants assert that the IDS's were filed in direct response to a telephonic request from the Examiner.

OPINION

Applicants' arguments have been carefully considered. A review of the record reveals that applicant re-filed copies of IDS's previously filed on June 25, 2002, and April 29, 2003 respectively, noting in the filing that the IDS's were filed at the request of the Examiner. The copies included Certificates of Mailing and return-receipt postcards confirming the prior filing of the IDS's. As such, the IDS's filed February 28, 2005, filed as a supplemental paper within the meaning of 37 CFR 1.704(c)(8), were expressly requested by the Examiner. A review of the application history further confirms that the IDS's were not otherwise filed under circumstances that constitute a failure to engage in reasonable efforts to conclude prosecution. The period of reduction of 271 days entered for the filing of the IDS's is not warranted and is being removed.

With regard to the argument under 37 CFR 1.702(b), knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As such, the Office can not make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicant is advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicant must timely file an application for patent term adjustment prior to the payment of the issue fee².

² For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on

In view thereof, the correct Patent Term Adjustment at the time of the mailing of the Notice of Allowance is seven hundred twenty-four (724) days (adjustments totaling 964 days less reductions totaling 240 days).

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e) for consideration of the application for patent term adjustment under 37 CFR 1.705(b).

Any request for reconsideration of the patent term adjustment indicated on the patent must be timely filed within 2 months after issuance pursuant to 37 CFR 1.705(d) and must include payment of the required fee under 37 CFR 1.18(e).

The Office of Data Management has been advised of this decision. This application is being referred to the Office of Data Management for issuance of the patent.

Telephone inquiries specific to this matter should be directed to Attorney Derek Woods, at (571) 272-3232.

Anthony Knight
Director

Enclosure: Copy of Revised PALM Screen

which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the §1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

APPLICATION FOR PATENT TERM ADJUSTMENT INCLUDING REQUEST FOR
RECONSIDERATION UNDER 37 CFR §1.705(b)

Dear Sir:

1. This is a request for reconsideration of the patent term adjustment of 453 days indicated on the Notice of Allowance mailed April 16, 2009.
2. This application is being filed no later than the time of filing of the issue fee.
3. Applicant submits herewith a “Statement Under 37 CFR §1.702(2)”.
4. In accordance with 36 CFR §1.705(b)(1), please charge the fee set forth in 37 CFR §1.18(e) (\$200) to our Deposit Account No. 19-1970. Please charge any necessary additional fees or credit any overpayments to our Deposit Account No. 19-1970.

Respectfully submitted,

SHERIDAN ROSS P.C.

STATEMENT UNDER 37 C.F.R. §1.702(b)(2)

Dear Sir:

1. This statement is respectfully submitted in support of the "Application for Patent Term Adjustment Including Request for Reconsideration Under 37 C.F.R. §1.705(b)" for the above-referenced patent. In view of the following, it is respectfully requested that Applicant be granted a patent term adjustment of **1,137** days.

2. The patent term adjustment indicated on the Notice of Allowance mailed April 16, 2009 under 35 U.S.C. §154(b) is 453 days (a copy of the relevant page of the Notice is submitted herewith as Exhibit A). This determination of 453 days is in error. The correct patent term adjustment, based on the available estimates of issuance, is **1,137 days**. The relevant grounds for adjustment under 37 C.F.R. §1.702 include: (a)

"Failure to take certain actions within specified time frames", (b) "Failure to issue a patent within three years from the actual filing date of the application", and (e) "Delays caused by successful appellate review". (See *Wyeth v. Dudas*, 88 U.S.P.Q. 2d 1538 (D.D.C. 2008)). The relevant dates and facts will be discussed below.

A. Examination Delays Pursuant to 37 C.F.R. §1.703(a)

Pursuant to 37 C.F.R. §1.703(a), Applicant is entitled to a period of patent term adjustment due to the failure by the Office to mail an action under 35 U.S.C. §132 not later than 14 months after the actual filing date (i.e., by July 6, 2003) (hereinafter "14 Month Delay"). As the Office failed to mail an action under 35 U.S.C. § 132 until August 15, 2003, Applicant is entitled to a period of patent term adjustment beginning on the day after the date that is 14 months after the date on which the above-referenced application was filed under 35 U.S.C. §111(a), i.e. July 7, 2003, and ending on the date of mailing of an action under 35 U.S.C. §132, i.e., August 15, 2003. Accordingly, the period of patent term adjustment due to the 14 Month Delay by the Office is 40 days, which is in agreement with the period calculated by the Office on the Patent Term Adjustment History ("PTA History"). The PTA History is submitted herewith as Exhibit B. The PTA history shows the 40 day period calculated by the Office.

Also pursuant to 37 C.F.R. § 1.703(a), Applicant is entitled to a period of patent term adjustment due to failure by the Office to mail an Office Action not later than four months after Applicant submitted a response to a previous action (herein "4 Month Delay"). Applicant submitted a Response to a Non-Final Office Action on June 2, 2004. Since the Office failed to mail a subsequent Office Action until March 10, 2005, Applicant is entitled to a period of patent term adjustment beginning on the day after the date that is four months after the date on which the Response was filed, i.e., October 3, 2004, and ending on the date the Office mailed the subsequent Office Action, i.e., March 10, 2005. Therefore, the period of patent term adjustment due to

the 4 Month Delay is **159** days, which is in agreement with the period calculated by the Office (See Exhibit B).

B. "Three Years Delay" Pursuant to 37 C.F.R. §1.703(b)

In addition to the patent term adjustment due to the 14 Month Delay and the 4 Month Examination Delay, Applicants are entitled to a period of patent term adjustment pursuant to 37 C.F.R. §1.703(b). The period of delay under 37 C.F.R. §1.703(b) is equal to the number of days in the period beginning on the day after the date that is three years after the date on which the above referenced application was filed under 35 U.S.C. §111(a), i.e, May 7, 2005, and ending on the date a patent is issued, but not including the number of days, if any, in the period beginning on the date on which a request for continued examination (RCE) under 35 U.S.C. §132(b) was filed and ending on the date the patent was issued (hereinafter "Three Years Delay"). An RCE was filed on July 28, 2006, therefore, the period of Three Years Delay will be **448** days. This value was not listed in the calculations by the Office (See Exhibit B).

C. "Delays caused by successful appellate review" Pursuant to 37 C.F.R. §1.703(e)

Applicant is also entitled to a period of patent term adjustment pursuant to 37 C.F.R. §1.703(e). The period for adjustment under 37 C.F.R. §1.703(e) is "the period beginning on the date on which the notice of appeal to the Board of Patent Appeals and Interferences was filed... and ending on the date of a final decision by the Board..." A notice of appeal was filed January 1, 2007, but a favorable decision by the Board was not issued until February 5, 2009. Therefore, the period of patent term adjustment due to the appeal process is **765** days, which is in agreement with the period calculated by the Office (See Exhibit B).

As set forth in 37 C.F.R. §1.703(f), Applicant is entitled to a period of patent term adjustment equal to the period of delays based on the grounds set forth in 37 C.F.R. §1.702 (hereinafter "Office Delay") reduced by the period of time during which Patentees failed to engage in reasonable efforts to conclude prosecution pursuant to

37 C.F.R. §1.704 (hereinafter "Applicant Delay"). In this petition, the sum of the period of the 14 Month Delay and the period of the 4 Month Delay under 37 C.F.R. §1.703(a) is referred to as "Examination Delay." In this petition, the period of caused by successful appellate review pursuant to 37 C.F.R. § 1.703(e) is referred to as "Appeal Delay". With respect to the above-referenced application, the total period of Office Delay is the sum of the period of the Three Years Delay (**448** days) under 37 C.F.R. §1.703(b), the period of Examination Delay (**199** days) under 37 C.F.R. §1.703(a), and the "Appeal Delay" (**765** days) under 37 C.F.R. §1.703(e) *to the extent these periods of delay are not overlapping*. As the period of 14 Month Delay ended on July 6, 2003, prior to the first day of the period of Three Years Delay, i.e., May 7, 2005, Applicant submits that these periods are not overlapping. Patentees notes, however, that the 159 day period of 4 Month Delay (October 3, 2005 to June 10, 2005) overlaps with the Three Year Delay period (May 7, 2005 to July 28, 2006), resulting in **35** days of overlap (May 7, 2005 to June 10, 2005). The period of the Three Year Delay and the Appeal Delay do not overlap, as the Three Year Delay ends with the filing of the RCE on July 28, 2006 and the Notice of Appeal was filed January 3, 2007. Accordingly, Patentees submit that the total period of Office Delay is **1377** days, which is the sum of the period of Three Year Delay (**448** days), the period of Examination Delay (**199** days), and the Appeal Delay (**765** days) reduced by the period of overlap (**35** days).

14-month delay	40 days
4 month delay	159 days
Three year delay	448 days
Appeal delay	765 days
<u>Overlap</u>	<u>(35 days)</u>
Total Office Delay	1377 days

To calculate the period of patent term adjustment, the total period of Office Delay is reduced by the period of Applicant Delay, which the USPTO calculates as a period of 511 days (see "Applicant Delay" in Exhibit B). Applicant disputes the Applicant Delay calculated by the Office. As detailed below, Applicant concludes that that Applicant delay is only 240 days. Accordingly, Applicant submits that the correct patent term adjustment for the above-referenced application is **1,137** days which is the difference between the total period of Office Delay (**1377** days) and the period of Applicant Delay (**240** days) (see below).

D. "Applicant Delay" Pursuant to 37 C.F.R. §1.704

Pursuant to 37 C.F.R. §1.704 the period of adjustment of the term of the patent due to examination delay is reduced by the period of Applicant Delay. The circumstances during the prosecution of the application that resulted in the above-identified patents are summarized as follows:

(i) Pursuant to 37 C.F.R. §1.704(b), the period of adjustment of the term of a patent under 37 C.F.R. § 1.703(a) through (e) is reduced by the period of time in excess of three months that is taken to reply to any notice or action by the Office. A non-final Office Action was mailed on December 1, 2003. Applicant responded to the non-final Office Action on June 2, 2004, which is three months and 91 days after the mailing date of the non-final Office Action. This constitutes a **91** day Applicant Delay under 37 C.F.R. § 1.704(b), in agreement with the Office.

(ii) A second non-final Office Action was mailed on March 10, 2005. Applicant responded to the second non-final Office Action on July 8, 2005 which is three months and 28 days after the mailing date of the second non-final Office Action. This constitutes a **28** day Applicant Delay under 37 C.F.R. § 1.704(b).

(iii) A Final Office Action was mailed on October 4, 2005. Applicant responded by filing a Notice of Appeal on April 4, 2006, which is three months and 90 days after the mailing date of the third non-final Office Action. This constitutes a **90 day** Applicant Delay under 37 C.F.R. § 1.704(b).

(iv) Pursuant to 37 C.F.R. § 1.704(c)(8), the period of adjustment of the term of a patent under 37 C.F.R. § 1.703(a) through (e) is reduced by the submission of a supplementary reply or paper after a reply is filed. The period of adjustment is the number of days after the initial reply was filed. An IDS was filed on Aug 28, 2006, 31 days after the filing of the RCE on July 28, 2006. This constitutes a **31 day** Applicant Delay under 37 C.F.R. § 1.704(c)(8).

(v) 37 C.F.R. § 1.704(c)(8) states: "Submission of a supplemental reply or other paper, *other than* a supplemental reply or paper *expressly requested by the examiner*, after a reply has been filed, in which case the period of adjustment set forth in § 1.703 shall be reduced...". Applicant filed a supplemental IDS on February 28, 2005 in direct response to a telephonic request from Examiner Mitchell to Applicant's representative Gary Connell on February 18, 2005. The Examiner indicated that the references filed with the previous IDS filed June 2, 2004 were not in the PTO's electronic system. The Examiner requested that Mr. Connell submit a replacement IDS. Mr. Connell filed the supplemental IDS within 10 days of the request. As the IDS of February 28, 2005 was in direct response to an express request from the Examiner, an adjustment under 37 C.F.R. § 1.704(c)(8) does not apply (i.e., **0 days**). This is in contrast to the listing of the Office indicating a 271 day adjustment.

(vi) Applicant notes that an amendment under § 1.312 is being filed concurrently with this application. Under 37 C.F.R. § 1.704(c)(10)(i) the adjustment will be the lesser of:

“(i) The number of days, if any, beginning on the date the amendment under §1.312 or other paper was filed and ending on the mailing date of the Office Action or notice in response to the amendment under §1.312 or such other paper; or

(ii) Four months...”

As Applicant has no way of predicting when the Examiner will respond to the 1.312 amendment, any adjustment under 37 C.F.R. §1.704(c)(10)(i) is not including in the calculations below.

The Total Applicant Delay is calculated as follows:

Response to First Office Action Delay	91 days
Response to Second Office Action Delay	28 days
Response to Third Office Action Delay	90 days
IDS	31 days
Total Applicant Delay	240 days

As indicated on the PTA History (Exhibit B), the Office has calculated a period of Applicant Delay of 511 days. This is in disagreement with the Applicant Delay calculated by Patentee, as explained above.

E. Calculation of Correct Patent Term Adjustment Pursuant to 37 C.F.R. § 1.702(f)

As set forth in 37 C.F.R. § 1.703(f), Applicants are entitled to a period of patent term adjustment equal to the period of PTO Delay reduced by the period of Applicant Delay. Therefore, Applicants submit that the correct patent term adjustment for the above-referenced application is **1,137days**, which is the difference between the total period of PTO Delay (1377 days) and the period of Applicant Delay (240 days).

F. No Terminal Disclaimer

U.S. Serial No. 10/049,427
Group Art Unit 1617

In accordance with 37 C.F.R. § 1.705(b)(2)(iii), Applicant submits that the above identified application is not be subject to a terminal disclaimer.

G. Conclusion

In view of the foregoing, it is respectfully requested that this Application for Patent Term Adjustment be favorably considered and that a corrected Determination of Patent Term Adjustment be issued to reflect a patent term adjustment of **1,137 days**.

Respectfully submitted,

SHERIDAN ROSS P.C.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 453 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 453 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.
